

BEYOND COST OPTIMIZATION

HOW TO SOLVE YOUR FINOPS CHALLENGES

JESSE DEROSE

JUNE 2022

HELLO!

I am Jesse DeRose (he/him)

I'm your guide for successful FinOps programs.

You can find me at www.deroses.cloud.

Cloud Computing

78%

of executives
adopted cloud in
most or all parts of
their business

(Source: [PwC](#))

19.4

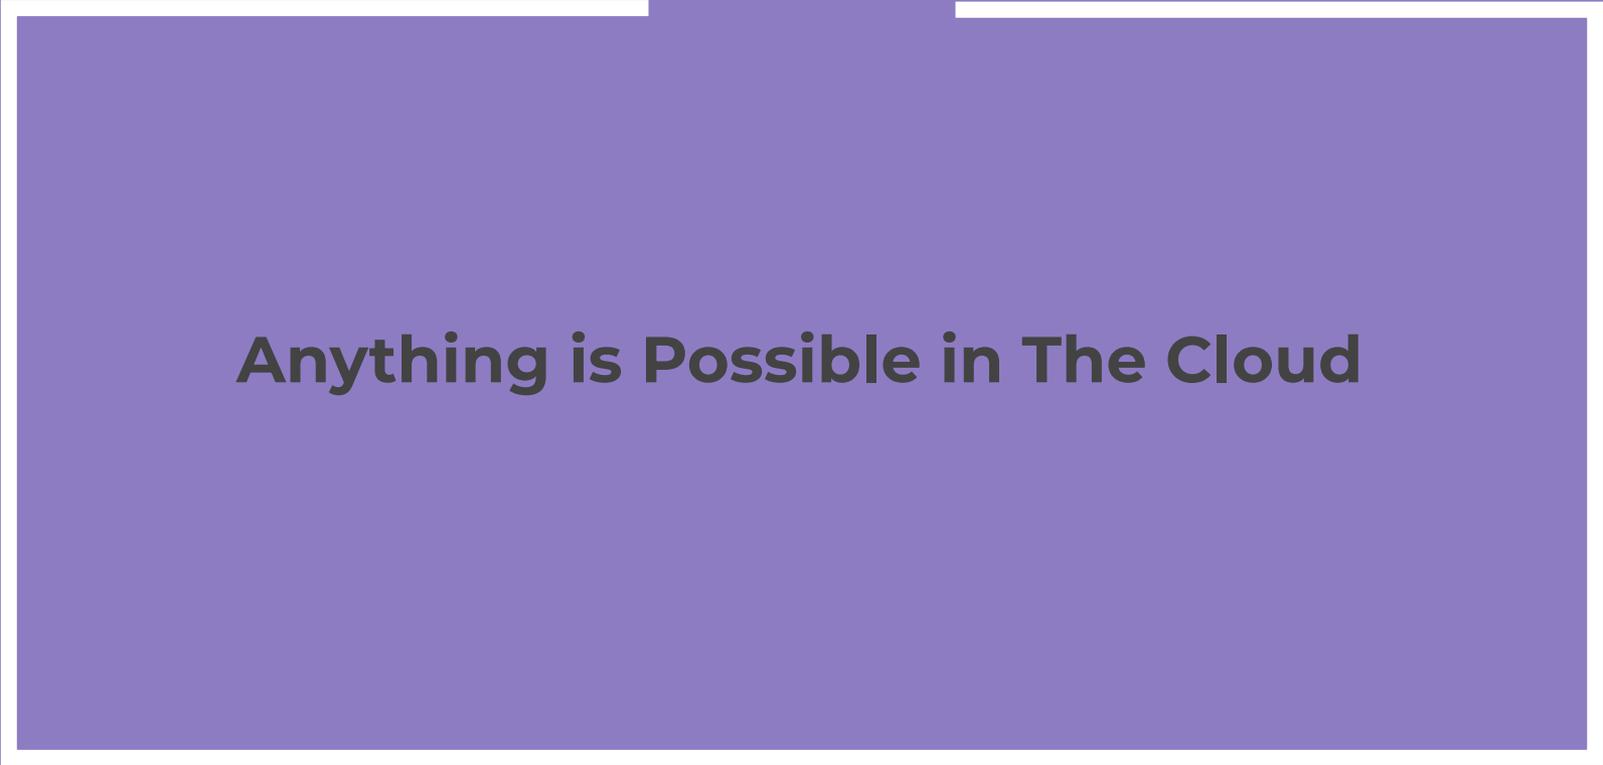

year-over-year
growth of cloud
infrastructure

(Source: [IDC](#))

45%

IT spending will
shift to cloud

(Source: [Gartner](#))

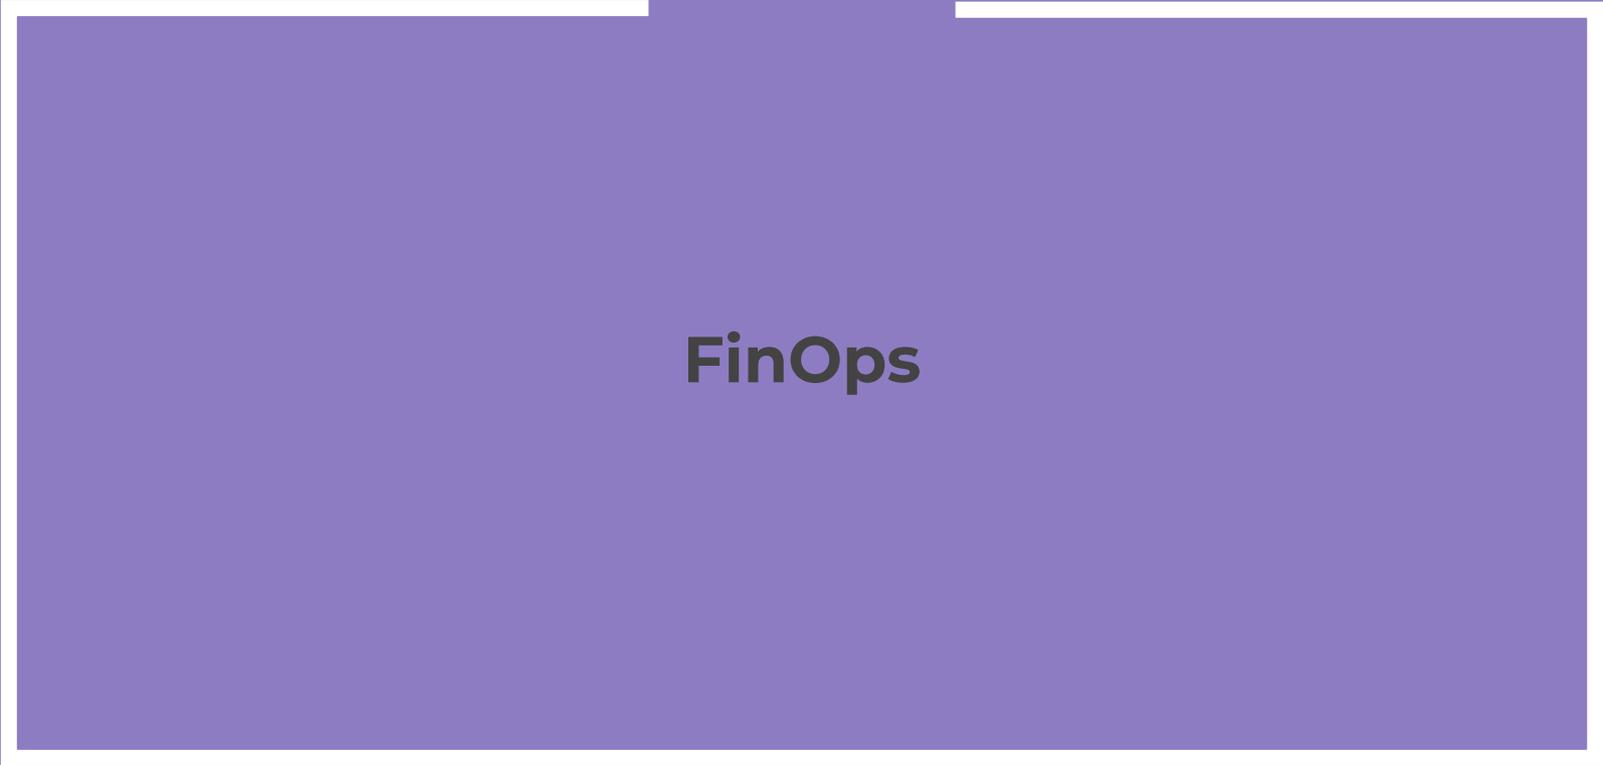

Anything is Possible in The Cloud

Expensive
Anything is ~~Possible~~ in The Cloud

Data Center vs Cloud

	Data Center	Cloud
Pricing Model	Hardware (Servers), Rack Space	Instance, GB, Metric, API call, Load Balancer Capacity Unit, etc.
Billing Frequency	Upfront, then monthly depreciation	Hourly
Forecasting Capability	Stable	Variable
Financial Model	Capital Expenses	Operating Expenses

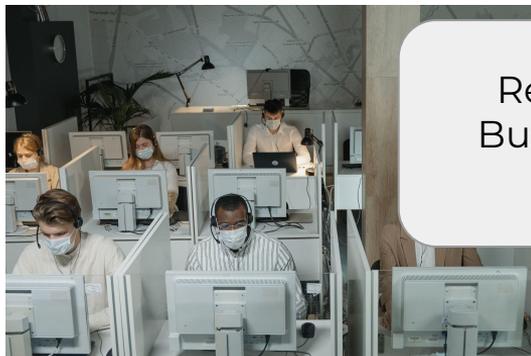

FinOps

*FinOps is a ... discipline and cultural practice
that enables organizations to get **maximum business value**
by helping engineering, finance, technology and business teams
to **collaborate on data-driven spending decisions.***

Cost-Conscious Culture

* Multi-currency cost reporting

* Multi-currency cost reporting

* Multi-currency cost reporting

* Multi-currency cost reporting

- Get senior leadership bought-in and communicating
- Incentivize employees to care
- Make the happy path the easy path

Business Practice 1

Leadership Buy-In and Communication

Why does the company need to care?

- Accurate forecasting
- Product operating costs
- Business KPIs

Understanding Cloud Usage and Cost

Within this Domain, the organization will work to gather all required information about its cloud usage and cost, normalize it, make it available for review, including circulating it to those personas that will use it in other Domains [Read more](#)

Cloud Rate Optimization

Within this domain, the organization works to define its pricing model goals, uses historical data to make pricing model adjustments by buying commitment based discounts, and works to manage the pricing aspects of services it is using in the cloud. [Read more](#)

- [Intersection of Cloud FinOps & Sustainability](#)

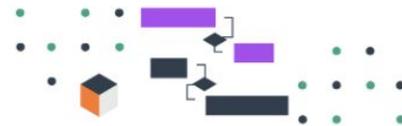

Performance Tracking & Benchmarking

Within this domain, the organization sets and maps its usage and cost to budgets, uses historical information to forecast, and establishes and measures KPIs and other performance indicators, including benchmarking. [Read more](#)

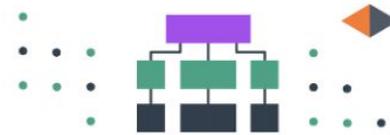

Cloud Usage Optimization

Within this domain, the organization identifies and takes action to match running cloud resources to the actual demand of the workloads running at any given time. This work involves predictive rightsizing of resources, managing workloads to align with the correct number of scaling resources, turning resources off when not in use, and other techniques. [Read more](#)

Real-Time Decision Making

This Domain improves stakeholder enablement by curating data in stakeholder-specific contexts, iteratively improving decision velocity and aligning organizational processes to the realities of operating in the cloud. [Read more](#)

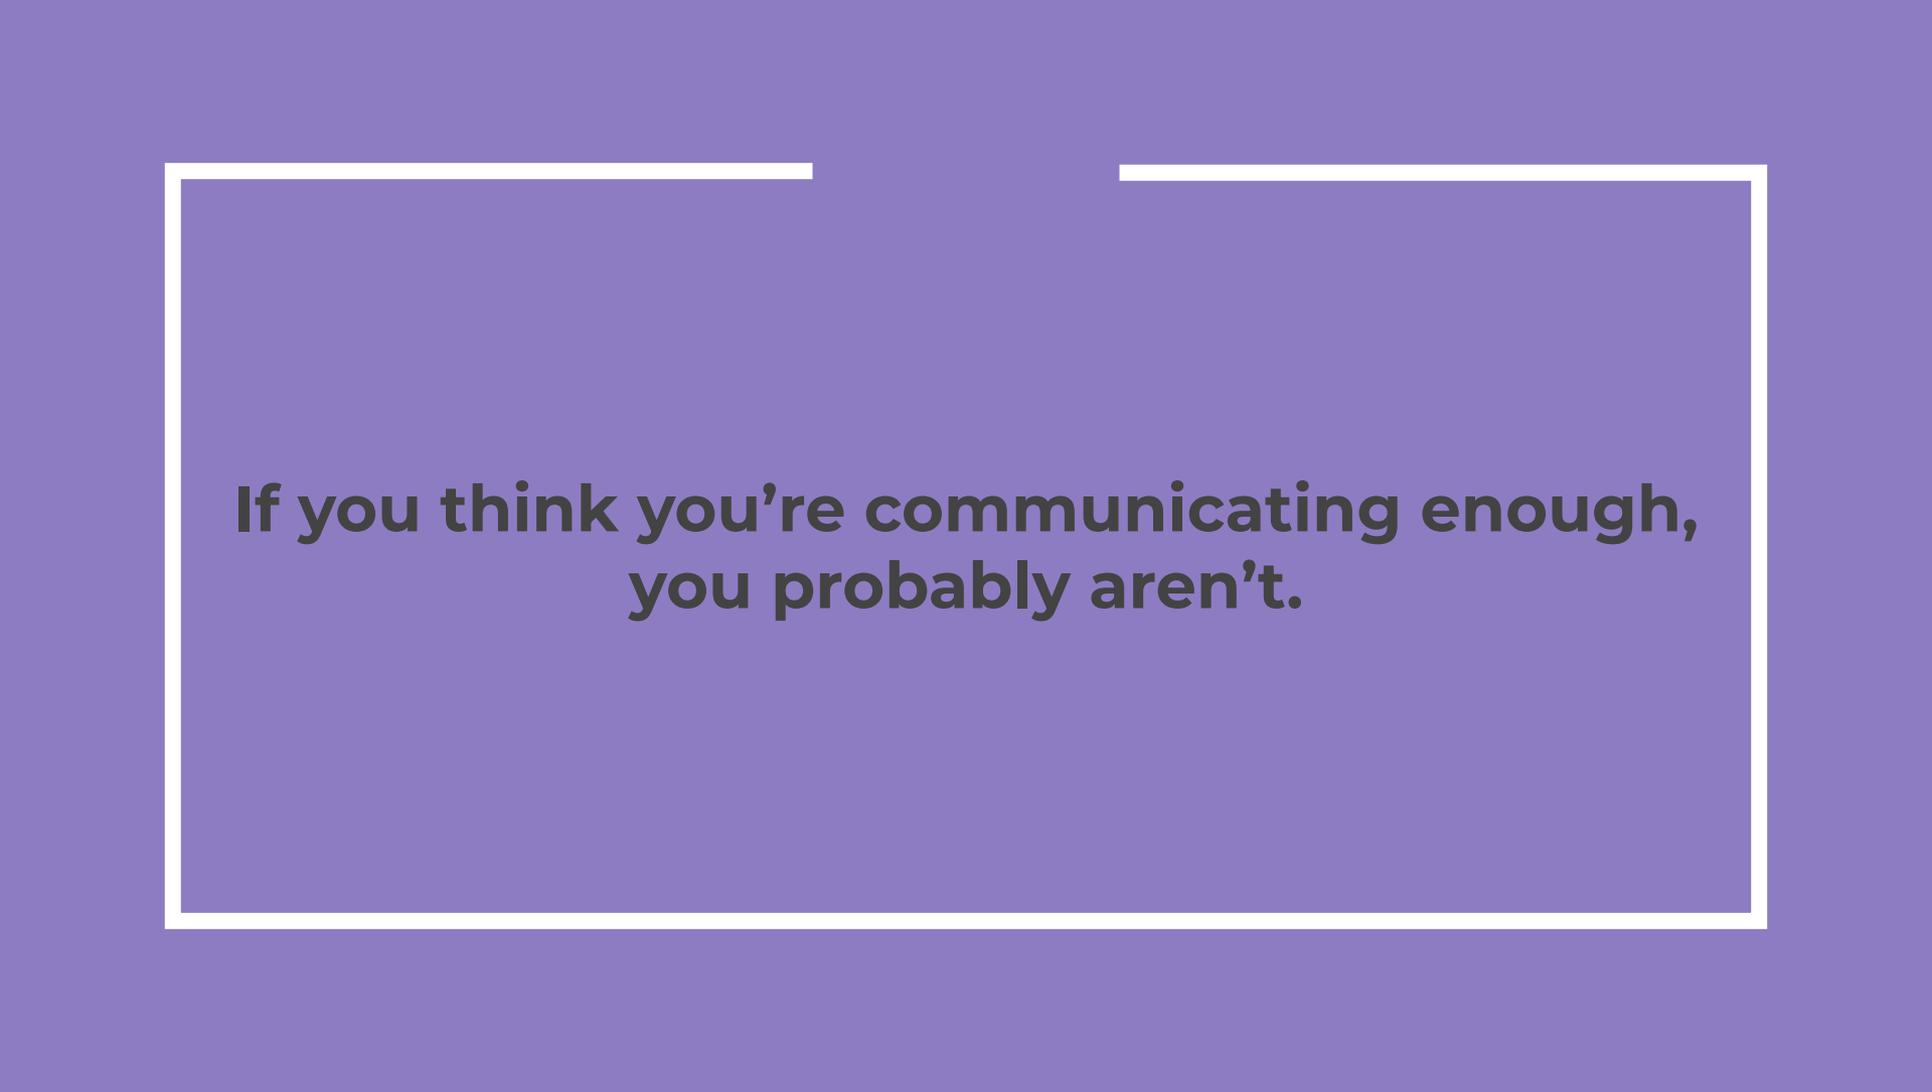

Organizational Alignment

Within this domain, the organization acts and automates to manage cloud use within the context of other IT Finance activities, and integrates FinOps capabilities with existing organizational processes, organizational units, and technology. [Read more](#)

- [Intersection of FinOps & ITSM](#)

How does this goal fit into the **business roadmap**?

**If you think you're communicating enough,
you probably aren't.**

Business Practice 2

Incentivize Employees to Care

Companies must **boost the commitment** of two different groups of people if they want change projects to take root:

... the most **influential executives**, who are not necessarily those with the top titles.

And ... **the people who must deal with the new systems, processes, or ways of working.**

Business Practice 3

Make the Happy Path the Easy Path

Habits

Cue

Reward

Routine

Source: *The Power of Habit* - Charles Duhigg

There is nothing wrong with a reactive approach. But, a proactive approach can't be a derivative of cost, it should be part of the **#design**, **#strategy**, and **#provisioning** process in the engineering teams.

FinOps is...

-  Short-term cost optimization
-  Long-term cost management

- Get senior leadership bought-in and communicating
- Incentivize employees to care
- Make the happy path the easy path
